Professional Summary

Full-Stack Software Developer with 3 years of experience building scalable, cloud-native, and AI-powered solutions. Achieved **40% server load reduction**, **35% faster API response times**, and **22% infrastructure cost savings** through serverless architectures. AWS Certified Developer with strong expertise in modern web technologies and enterprise-grade system design.

Technical Skills

Programming Languages: JavaScript, TypeScript, Python

Frontend/Backend Technologies: React, Angular, Node.js, Express.js, FastAPI, MongoDB, ChromaDB

AI/ML: RAG, LangChain, LLMs, NLP, Prompt Engineering, AI Content Generation,

Cloud & DevOps: AWS (Lambda, EC2, S3, Step Functions), Docker, Kubernetes, CI/CD Pipelines

Messaging & Caching: Kafka, Redis

Monitoring: Prometheus, Grafana

Professional Experience

Sify Technologies

July 2023 – Present

Software Developer

Chennai, Tamil Nadu

- Architected serverless applications using AWS Step Functions and Lambda, **reducing peak server load by 40%**
- Optimized backend APIs and workflows, achieving **35% faster response times** and reducing customer complaints by 28%
- Reduced infrastructure costs by **22%** through modular backend design and efficient resource utilization
- Delivered cloud-native full-stack solutions using React, Node.js, MongoDB, Docker, and AWS, maintaining **99.9% uptime**

Sify Technologies

January 2023 – July 2023

Software Developer Intern

Chennai, Tamil Nadu

- Built and deployed **2+ full-stack applications** using MERN/MEAN stack, improving frontend load time by 30%
- Integrated AWS services (EC2, S3, Lambda), achieving **25% reduction in API latency**
- Collaborated with cross-functional teams using Git and Agile practices, improving code quality and delivery speed

Key Projects

AI-Powered Text-to-Video Generation Platform

2025

- Built an automated video generation platform using LLMs, **reducing production time by 75%**
- Led migration from monolithic architecture to microservices, **reducing release cycles by 30%**
- Designed an asynchronous, event-driven pipeline using **AWS Step Functions and Lambda** to handle large-scale video generation workloads
- Implemented AI-driven storyboarding using LLMs, achieving **85% narrative coherence**
- *Technologies: Node.js, React, LLMs, Edge-TTS, FFmpeg, AWS S3, Step Functions, Lambda*

AI-Based Assessment & Question Generation Platform

2024

- Developed an AI-powered assessment system using **RAG and LLMs** to generate questions from documents
- Built semantic retrieval pipelines with **LangChain and ChromaDB**, improving relevance and reducing hallucinations
- Automated dynamic question bank generation with context and difficulty control, **reducing manual effort by 70%**
- *Technologies: Python, FastAPI, LangChain, RAG, ChromaDB, MongoDB, React, AWS S3*

Electronic Project Management System (EPMS)

2023

- Designed and implemented a **multi-tenant SaaS system** with secure authentication using **JWT** and **OAuth 2.0**
- Enforced fine-grained **Role-Based Access Control (RBAC)** across backend APIs and UI for Admin, User, Project Manager, and Finance roles
- Built approval workflows, dashboards, automated reporting, and finance modules, **streamlining processes by 50%**, reducing manual effort by 70%, and improving productivity by 35%
- *Technologies: React, Node.js, MongoDB, AWS Lambda, CloudFormation, Kafka, Redis, JWT, OAuth 2.0, REST APIs*

Education

Velammal Engineering College

August 2019 – May 2023

Bachelor of Technology in Information Technology

Chennai, Tamil Nadu

Certifications

AWS Certified Developer – Associate

May 2023
